

Here are a couple of updates from the CalFresh front.

1. The Able Bodied Adults Without Dependents time limit implementation has been postponed by an injunction (and the COVID-19 response waivers in HR 6201). We will **NOT** be implementing in April 2020! I'll share when we get word about when we will implement.
2. HHS Self Sufficiency Services (SSSD) is offering limited services and encouraging self-service and remote options wherever possible. (This is true for CalWORKs [cash program] and medical programs as well.) We have limited staff due to the essential staff only requirement. The SSSD website explains which services are available during this time.
